

Top 21 Tools That Help Increase Business Visibility Online

Brought to you by Kim Beasley

How do I increase business visibility online?

Have you been searching for resources that can help you increase business visibility online? Has traffic to your website been underwhelming?

Maybe you are simply on the lookout for tools that can help you locate your target customer base online?

Where can I find resources?

Then look no further. This PDF compiles a solid list of business resources that can help you increase business visibility.

While scouring the internet for great productivity and branding tools, we found a great article by Fundera titled, "[50 Free Tools to Help Grow Your Small Business](#)".

Let's get started...

The blog post from Fundera inspired this helpful PDF guide, and while we have included some of the tools they touched upon, we have also found some gems to aid your journey to online domination.

Here are the tools...

1. Google My Business (GMB)

This is not just for local businesses. Whether your business is online or offline or a combination of both, you can set up a Google My Business listing. When you have a GMB listing, it will allow you to be found in Google search for your keywords.

Google My Business

2. Google Analytics

It is very important that you analyze the web traffic for your website and using Google Analytics is a good tool that you can use. If you want to use tools that help you get a better understanding of Google Analytics, then you can use Serpstats or Databox. Both of these incorporate Google Analytics into the reports generated via their website.

Google Analytics

3. WordPress.org

This tool is the self-hosted solution to build a WordPress website that can help you increase business visibility online. Your website won't be on WordPress.org because you will need to purchase web hosting from a resource like Hostek or Bluehost. Each of these offers you a script that will allow you to install WordPress easier so that you can build your website.
